Sub: Non functioning of S.T.P.

Ref.: This office even file letter no. 938-940 dated 24-03-2015.

Sir,

With reference to above referred letter vide which it was pointed out that S.T.P. in the South campus is out of order and untreated water is being drained out directly into the river for the last two weeks and following are the defects:

1. Auto functioning panel of RMBR unit is out of order.
2. Oxygen unit in RMBR chamber is out of order.
3. Sand filter is out of order due to which carbon filter is also not working.
4. Motor of raw water pump is out of order.

As on today S.T.P. is emitting the foul smell, was inspected again today and it was found that S.T.P. was not working at all.

It is therefore requested that kindly intervene personally and get the problem resolved otherwise it is becoming difficult for the staff/students residing nearby. Your staff deputed is taking the repair casually.
