

Dr. Shubhajit Roy Chowdhury, Associate Professor, has been appointed as an Associate Editor of the IEEE Journal of Translational Engineering in Health and Medicine from 11th July 2019-10th July 2022 for the period of three years.

IEEE Journal of Translational Engineering in Health and Medicine ([JTEHM](#)) publishes translational research papers and findings in all stages of technology translation to healthcare and clinical applications emphasizing on the expected or demonstrated impact in patient care and medical practice.

JTEHM publishes two kinds of papers.

1. Early Translational Research Papers: These papers are usually in the early translation ([T1](#)) process.
2. Clinical Trial Papers: These papers include [T2](#) and [T3](#) clinical and healthcare translation for assessing a technology's efficacy and possible impact on patient care.
