

## Blood Donation Camp

Dated: 07<sup>th</sup> November, 2014

“Even if I died in the service of the nation, I would be proud of it. Every drop of my blood will contribute to the growth of this nation and to make it strong and dynamic.”

—Indira Gandhi

Blood Donation is a service to mankind. By donating blood one can help a needy and save a precious life. Transfusion of blood saves millions of life all over the world. Every year, there are millions of blood donors in the world but still India has deficiency in the adequate number of blood donors.

Whatever the reason, the need is increasing and our contribution is important for a healthy and reliable blood supply. We feel good if we contribute a bit in saving a precious life. Keeping in view the problem of acute blood shortage, a blood donation camp was organized on 7<sup>th</sup> November, 2014 by the NSS unit IIT Mandi.

Volunteers are getting registered for blood donation and medical checkup

It began at 11:00 a.m. and continued up to 3:00 p.m. Students, faculties and staff members participated in the camp. CR-1 (Stable Complex) was used for medical checkup of the donors and for blood donation. Volunteers motivated the students and made them aware about the noble

cause. Refreshment was served to the donors. In total 56 units of blood were collected. The samples were carefully sealed and transported to the blood bank.

Students, faculties and staff members are donating blood

We specially thank to the students, staff and faculty members who came forward for the noble cause and showed their interest and responsibilities to make it successful. These kinds of camps make students aware about their social responsibilities and to make them enthusiastic enough to take part in the same.
